Classic Pool Coping is made from 4000 psi Hardrock Concrete, using Type III Cement. Non-slip Stipple or Sand Blast finish available.

*All Materials are natural, therefore some variation in color and texture is to be expected. Before ordering, Stepstone strongly recommends that you make your color selection using actual color concrete samples found at your local dealer. Sizes nominal.

* NOTE: Appliqués, veneers and items that add to the width of the gunnite wall need to be considered before determining radius. Standard radius pieces might require field cutting to accommodate a non-standard radius.
