

STEPTREAD Pictoral Kai Makani

391 S. Kihei Rd., Kihei, Maui

This Armstrong Builders project had not planned ahead for Steptreads, as the stair towers were already designed and partially built. So these custom landings were designed to keep the cost down by having no landing plank in the 180° landings exceed 48". With the perpendicular plank neatly tucked in the middle, the overall dimension of 4' X 9' was maintained.

Open-Riser STEPTREADS
Color: Hawaiian Sand
Surface: Standard Del Rio
Exposed Aggregate
Bullnose profile
