

STEPTREAD Job Tour

Lokahi Ka'u Apartments

73-4411 Kakahiaka St., Kona, Hawaii (Mauka of Kona Airport)

This 3 story affordable housing project was built in 2009 by **Metcalf Construction**, who first used **STEPTREADS** on their WorldMark/Kona project on Alii Drive 13 years ago, then 3 more projects.

More than **20,000 STEPTREADS** have been installed in Hawaiian projects in the past 19 years. Not one has been reported cracked or had a chipped nose!

Closed-Riser STEPTREADS were used, in our new **Hawaiian Texture exposed aggregate**.

Looking down: close-up of **Hawaiian Texture**. Walkways were tiled, transitioning to our top nosing tread. Here's our most popular color: **Hawaiian Sand**.
