

STEPTREAD Job Report

Here's Napili Villas , at 353 Ano St. across from Fish & Game Restaurant, Napili, Maui

Granada Natural Closed-Riser STEPTREADS were used. Condo managers like the minimum maintenance. Owners like the appearance and resale values. Contractors like the easy installation.

Notice the caulk beads along all edges. Without any encouragement or endorsement from Stepstone, the developer wanted waterproof storage under the stairs. Two years after installation, the resident manager reported still no leaks.

Contractor: AC Kobayashi
