

STEPTREAD Weld-on Specs p1

Reinforced Precast Open-Riser Stair Treads
Treads Welded to Steel Stringers
To Angles Provided by Others

SPECS

$f_c' = 5,000$ PSI @ 28 DAYS
WWM: ASTM C150 Type III
SHEET METAL: ASTM A446
Weight: 90# for 36" (30#/ft).
Factory length tolerance: $\pm 1/8$ "
Min. coefficient of friction:
60% wet & dry. Noncombustible.

Product is hand made of natural material, so minor variation in color & size is normal.

For new projects, these construction covers will save the cost of temporaries. (Not provided on rehab projects.)

Length to suit. (Optimum pricing is 48" or less). Usually ordered 1/4" less than minimum distance between stringers.

STEPTREADS are made by STEPSTONE INC in Gardena, California, since 1967. They are guaranteed against hidden shipping damage, or manufacturing defects or breakage under normal usage for five years. They would be replaced free, excluding labor & shipping.
